Happy Thanksgiving

As we quickly approach Thanksgiving Day, Peak Software would like to reach out to all of our "family and friends", our customers, to let you know how appreciative we are that you allow us to be a service to you and your organizations. Thank you for your continued and loyal business. Have a great Thanksgiving weekend!

Emailing Receipts and Waivers from the Cash Register

Based on customer feedback and input, we have now simplified the process for you to email a receipt or waiver to your customers directly from the Cash Register screen at the time of sale. Previous to this new addition, SportsMan did have the ability to reprint a receipt or waiver for a customer, but it took a few extra steps from the Cash Register screen to get there. The new update makes the process of emailing the receipts much more efficient and gives you the option to print, email, and preview the receipts or waivers without any additional steps.

To configure the email receipt and waiver option, go to File > Administration > Site Configuration > Cash Register tab. Under the "Print Cash Register Receipts" or "Print Individual Waivers" settings, select the "Ask" option. This will enable the feature to email the receipt and/or waivers directly after the time of sale to the customer.
